

# Neel Lab Clone Directory

Please provide the following information. If you cannot fill out any of the info, please indicate the appropriate reference. Provide one frozen stock and at least one (1)  $\mu$ g of plasmid DNA with this form to the technician.

Clone Name (full & abbrev.)

FB 21-7 con

Source (lab name or construct derivation)

Accession #: L03535  
Sequence from EcoRI to ATG:

Parental Vector & Selectable Marker

pJ3  
ampicillin

GAATTC CG GGC GGG AGG AAC ATG<sup>M</sup>

Insert Size & Properties

1.97kb insert  
SH-PTP2 wild type gene  
inserted into EcoRI site of pJ3

Available as...

- ☐ frozen stock strain
- ☐ banded DNA
- ☐ miniprep DNA
- ☒ other Qiagen column purified

Other information

Sequence Availability?  
yes

Brief Restriction Map  
(including key sites, promoters, f origins, etc..  
Include any detailed maps with this form)
